Healthcare Business Analyst

Description

Wellnecity provides innovative data insights & services through its Proactive Health Plan Management™ platform to reshape health care performance for self-insured employers and their employees. Help us change the rules of healthcare and create the future! If you are strong and passionate about data, help us outpace other innovators in healthcare to deliver better care to patients, decrease cost, and improve population health. The ideal candidate will be someone who enjoys structuring problems that can be solved through data analytic methods. Join Wellnecity and be a part of a growing business that specializes in business solutions through data analytic resolutions.

Responsibilities

- Use statistical methods to analyze data and generate useful business insights
- Create models to identify trends and track changes across time
- Develop and deliver analyses and reports to internal and external stakeholders
- Work with customer success team leads to identify savings opportunity areas for external stakeholders
- Track the performance of Health Plan initiatives for external stakeholders and proactively identify ways to improve performance
- Combine quantitative data with qualitative data (e.g., Health Plan contracts) to help internal and external stakeholders understand the relationship between claims data and broader Health Plan decisions
- Work with management team to structure an analytic environment that supports ongoing problem-solving
- Support R&D to help better understand people and their healthcare usage patterns and identify strategies to decrease cost and improve health outcomes

Qualifications

- Bachelor's degree required, Master's preferred with practical or academic experience in data analytics
- Demonstrated success in team environments
- Detailed analytical abilities demonstrated either through coursework or job experience
- A natural curiosity for identifying issues within data and developing business solutions
- Data Visualization skills a plus (e.g., Looker)
- Experience in financial modeling a plus, but not required
- Experience in Google Cloud Platform a plus, but not required
- Experience in the healthcare industry a plus, but not required
- SQL experience required; R and Python a plus
- Ability to work in a fast-paced environment

Wellnecity is an Equal Opportunity Employer, and all qualified applicants will
