Healthcare Business Analyst

Description

Help us change the rules of healthcare and create the future! Are you strong with data? Help us outpace other innovators in healthcare to deliver better care to patients, decrease cost, and improve population health. Do you enjoy structuring problems that can be solved through data analytic methods? Are you intrigued by an environment with an ever-growing list of business problems that can now be solved through sound data analytics?

We are looking for strong business analysts to complement and support a client service team

Responsibilities

- Use statistical methods to analyze data and generate useful business insights
- Create models to identify trends and track changes across time
- Work with management team to structure an analytic environment that supports ongoing problem-solving leveraging expanding data tied to people and healthcare
- Perform end to end analysis from data ingestion / validation to insight generation, helping clients gain better insights into their Health Plan
- Develop and deliver analyses and reports to internal and external stakeholders
- Support R&D to help better understand people and their healthcare usage patterns and identify strategies to decrease cost and improve health outcomes

Qualifications

- Bachelor's degree required, Master's preferred with practical or academic experience in data analytics
- Demonstrated success in team environments
- Strong written and verbal communication skills
- Detailed analytical abilities demonstrated either through coursework or job experience
- A natural curiosity for identifying issues within data and developing business solutions
- Data Visualization skills a plus (e.g., Tableau or PowerBI)
- Experience in financial modeling a plus, but not required
- Experience in Google Cloud Platform a plus, but not required
- Experience in the healthcare industry a plus, but not required
- Practical application ability with Microsoft Office Suite
- SQL experience required; R and Python a plus
- Ability to work in a fast-paced environment
